As we can see, since the 2013 Combine less players have been drafted and became NHL players. From the 2019 Combine, not on single player played NHL during the season 2019/2020 despite 33.33% from the Combine were first round drafts. This group had the lowest Team Testing Index, (87.83%)

Our Testing Index shows the weaker Team performance of the 2018 and 2019 Combines. In the 2018 Testings, only 7 players made it to the NHL and 2019 0. Its very interesting to note that the 2018 Combine performance was second lowest, respectively 2019 the lowest with 87.83% since started tracking 2013. The 2020 Combine had a nice improvement to 89.83% and 16 players (48.48%) from all the players were drafted in the first round compared to 33.33% in 2019
