HOCKEY EDUCATION CAMPS 2024

BESA CAMP AROSA, WHERE TALENTS DEVELOP FURTHER!!

BIG NEWS

We still have available spots for the Power Skating Camps in Arosa, but the camp for players aged ten and above is filling up quickly. There is a high demand for all camps, and highly talented players are coming together to Arosa once again.

Currently, 27 players from twelve different clubs in the National League have participated in our BESA Power Skating Camp Arosa and testing at a young age.

For the 14th time, the Power Skating Camp takes place in Arosa, which has established itself as the largest Power Skating Camp in Europe. In addition to players in the National League, there are currently five players in the U20 national team roster who participated in the Arosa Camp, along with three other players who completed the On-Ice Test.

As the camps are always fully booked, it is advisable to register early. The participating players already demonstrate a quite good skating level, allowing training at a high standard. Our unique CHL/NHL On-Ice Test reveals strengths and weaknesses, clearly indicating a player's talent. We know what it takes to become a top hockey player
